

EXPLORE

Your Virtual Building

The **Graphisoft Virtual Building Explorer** lets you discover the Virtual Building™ by providing 3D navigation through a unique and high quality interactive approach. Photorealistic effects and physical attributes to of the navigation environment (collision, gravity, layer controlled visibility, etc.) makes moving around a “cakewalk”. The Graphisoft Virtual Building Explorer can also generate self-running, walk-through movies which enables anybody, anywhere, to have the same full 3D experience of the Virtual Building design.
